

Computer Based Testing (CBT) and the Future of BOMI

*BOMI will offer designation and certificate course exams at
computer-based testing centers.*

Dear students, partners, and associates,

BOMI International has selected Pearson VUE to provide computer-based testing services as BOMI seeks to meet the evolving market demand for its designation programs. Computer-based testing will allow BOMI to continue to maintain the high standards of the current examination while adding numerous benefits to both candidates and their employers. Pearson VUE provides innovative electronic testing solutions to enhance the performance, reliability, and security of high stakes testing programs, while BOMI brings nearly 40 years of successful experience educating the property and facility management industries. BOMI has selected Pearson VUE to ensure that its students and graduates will continue to be the most valuable professionals in their field.

BOMI International develops, maintains, promotes, and administers high quality designation programs for building professionals. BOMI's move to computer-based testing (CBT) demonstrates the organization's commitment to providing stakeholders with the highest levels of service and security. Since 1970, BOMI has provided first-rate programs and services offering building professionals an opportunity to demonstrate that they have mastered knowledge and skills across practice settings. The goal of BOMI designation programs is to add value to property and facility professionals through advanced education and training so they may advance their career.

Effective January 2010, Computer Based Testing will be implemented for all BOMI International examinations (except Ethics is Good Business® ShortCourse™), an additional testing fee will apply:

- \$60 (USD) U.S.
- \$75 + GST (CND) Canada
- \$65 (USD) Outside the U.S. and Canada

Visit <http://pearsonvue.com/ppc/video/> to see a video about CBT. In the weeks to come, BOMI will be providing more details and information on computer based testing to include registration policies and fees, scheduling options, access to a demonstration of CBT with a practice exam and much more.

Thank you.

BOMI International Staff

Dedication & Reliability

Computer-based testing will allow BOMI to continue to maintain the high standards of our exams while adding numerous benefits to both candidates and their employers.

Benefits to you:

Additional Testing Locations – Pearson VUE has an expansive network of Pearson Professional Centers and Pearson VUE® Authorized Test Center Selects globally, as well as in Pearson VUE® Authorized Test Center locations in Canada. This allows students to test at a location that is not only convenient, but also reduces travel time and expense.

Increased Testing Flexibility – Exams can be taken during the day and in some locations, in the evening and on weekends. With a wider choice of exam appointments and more testing locations, candidates have more flexibility and choice regarding when and where they test.

Expanded Scheduling – Computer-based testing makes scheduling BOMI exams simple and flexible. Candidates have the ability to schedule and reschedule their exams up to one full business day prior to the testing time without incurring additional charges.

Enhanced Testing Experience – The Pearson Professional Centers are carefully controlled testing environments designed solely for high-stakes testing. The test centers are quiet, distraction free, and encourage peak performance from each candidate. With well-lit parking and easy accessibility from major highways, the Pearson-owned and-operated test centers provide the best service, security and overall testing experience in the industry.

Increased Exam Security – Each Pearson Professional Center is a highly secure testing environment with the most advanced security processes in place to protect the integrity of BOMI exams. Strictly enforced procedures prevent unauthorized access to test items, exam results, and other sensitive information.

“More than a test, it’s the beginning of your career...”
